## SL750H PRO

Micro in size, gigantic in business communication.

The SL750H PRO isn't simply smaller - it's better in every way. The first thing you notice when you hold the handset is how great it feels in your hand; wider, significantly thinner and more elegant. The handset is loaded with Gigaset pro's business features enriched with Bluetooth, vibrate and audio profiles. This adapts the phone to fit to your personal needs in specific situations. The micro-usb port prepares the SL750H PRO for future software updates to support Gigaset pro DECT networks. This makes the handset fit perfectly to the N720 IP Multicell and N510 IP Singlecell systems from Gigaset pro. Likewise it can also be connected to other GAP compatible base stations in both single- and multicell environments. With a smooth, high-quality polymer surface that seamlessly meets the new 2.4" display, the handset is scratch- and disinfectant resistant. It's one continuous form where hardware and software are in perfect balance, creating a new generation of the SL-class that's better by any measure.

### Feature highlights:

- Large 2.4" TFT-color display with modern user interface
- Up to 12 hours of talk time. It supports your activities during the day, without re-charging
- Easy installation. Unpack, connect and conduct a call
- Profiles for personal, meeting and noisy environments
- Handsfree talking with brilliant HDSP/CAT-IQ 2.0 sound quality and high maximum volume
- Full compatibility with Gigaset N510 Single and N720 DECT IP Multicell systems
- Modern design with convenient size and proportions
- Searchable local phonebook with up to 500 vCards and corporate phonebook via PBX (XML, LDAP)
- Support of Net provider features via menu
- Vibrating alert
- Silent charger mode during parallel ringing
- Headset connection via Bluetooth® or 2.5 mm jack
- Convenient data exchange via Bluetooth® or micro-USB
- PIN-protected keylock for optimum line security
- Charging via any micro-USB
- Scratch- and disinfectant resistance
- Wider, significantly thinner and more elegant

### Multicell with roaming and handover

The SL750H PRO is entirely harmonizing with the Gigaset pro N720 IP Multicell and N510 IP Singlecell systems of Gigaset pro. Moving in and around the office while calling is a unique experience. You will enjoy the convenience and comfort you expect from Gigaset pro; keep on talking while the Gigaset pro satellites and base stations keep you connected with incredible audio quality. The Gigaset pro satellites and base stations make sure your connection never falters.

### Scratch and disinfectant resistant

The handset is built from a high quality polymer. The handset surface is protected with a unique scratch resistant coating. This ensures the handset will be protected against scratches in daily use. The coating also protects the handset against popular disinfectant influences allowing you to clean the handset responsibly in healthcare environments.

### HD Audio makes a call more pleasurable

In handsfree mode, the improved acoustics of the Gigaset pro speaker technology boosts the audio into a higher level. The user experiences an enriched sound clarity which brings new dynamic HD audio quality to the conversation. Uploaded and classical ringtones sound even more impressive and clearer. To complete the audio suite, with Audio-profiles you adjust the volume level matching your personal business circumstances by pressing one single key.

BECAUSE IT'S YOUR BUSINESS.

# SL750H PRO

Micro in size, gigantic in business communication.
