

Polycom® CX200 Desktop Phone for Microsoft® Office Communicator 2007

Benefits

Ease of provisioning – Seamlessly integrates with and complements the capabilities of Microsoft Office Communicator Server 2007

Hands-free freedom – Hands-free, clear one-on-one calls or group conversations with full duplex speakerphone mode

Superb voice quality – High-quality, high definition wideband audio for the best possible voice call quality

Enhanced presence indicator – Monitor presence status to efficiently route calls

Intuitive to use

- Convenient buttons and integrated functionality to pick up and hang up calls, control volume, switch between handset and speaker phone mode and mute the microphone on the active call
- Calls forwarded, voicemail and message waiting indicators keep users up to date with their communication service status
- Plug-and-play operation to a USB port on the PC

Enhance the unified communications experience with superb call quality

The Polycom CX200 desktop phone significantly enhances the overall communications experience by combining high definition and high fidelity audio for crystal clear conversations. It also offers the convenience of a plug-and-play USB audio peripheral that is tightly integrated with Office Communicator 2007.

The Polycom CX200 desktop phone gives users the ultimate in calling convenience from their Office Communicator 2007 enabled computer. With its sleek, high-quality handset and its full duplex, hands-free speakerphone, the Polycom CX200 desktop phone enables crystal-clear, natural conversations without echoes or feedback. Enjoy the freedom of not wearing a headset for hands-free calls, or the privacy and familiarity of the handset, all using the latest in wideband audio technology to provide the highest quality audio experience.

The Polycom CX200 desktop phone includes keys for controlling volume, mute speakerphone mode and use of an external headset. LED indicators provide the user with call forwarding status and message waiting indication. A large LED conveys the presence status of the user. The Polycom CX200 desktop phone connects and powers through an integrated USB cable for easy installation and use, so there are no extra cables to carry.

The Polycom CX200 desktop phone is optimized for Office Communicator 2007 and is compatible with Microsoft Windows® XP or Microsoft Windows Vista® operating systems.

Make Great Things Happen With the Polycom CX200 Desktop Phone

In today's Internet driven world, the ability to conduct real time communication and collaboration has become critical to an organization's survival. As the market leader in voice, video, data and Web collaboration solutions, Polycom's award-winning acoustic clarity technology delivers superb sound quality and full-duplex speakerphone performance, making it easy for people to interact and maximize productivity – over any network, in just about any environment, anywhere around the globe. That's why more organizations worldwide use and prefer Polycom conferencing and IP phone solutions. Because when people work together, great things happen. See how you too, can achieve great things with Polycom CX200 desktop phone.
