

# SH 358 IP

## Wideband quality with call control

SH 358 IP is a good quality double-sided wideband headset designed for all-day users working in noisy Unified Communications environments. With the focus on managing calls seamlessly using one device, SH 358 IP with integrated call control cable and USB connector offers great functionality, easy handling and convenience when connected to a softphone on PC. SH 358 IP productivity benefits include: Softphone and Microsoft Lync compatibility, unique sound-channeling foam ear pads, Sennheiser superior wideband acoustics, independently-adjustable double-sided headband, self-adjusting ball-mounted speakers, 300° adjustable microphone boom, noise-canceling microphone, and Sennheiser's unique, patented ActiveGard™ acoustic shock protection technology.

### Benefits and Features

- Double-sided comfort wearing style
- Noise-canceling microphone filters out ambient noise so your voice is always clear and easy to understand
- Headband adjustable on both sides and self-adjusting ball-mounted speakers for perfect fit
- 300° adjustable microphone boom allows mic to be positioned exactly as required
- Unique foam ear pads channel sound for great wideband audio
- Integrated call control cable with USB connector for connection to PC
- Downloadable HeadSetup PC Software enables seamless management of all call control features for a wide variety of softphones
- ActiveGard™ technology protects you from acoustic shock and sudden sound surges

<b>Product name</b>	<b>SH 358 IP</b>
Art. No.	504179
EAN No.	40 44155 07299 0
UPC No.	6 15104 22012 6
<b>Technical fact</b>	
Wearing style	Headband, binaural (double-sided)
Microphone	Noise-canceling
Frequency response	150 Hz – 6,800 Hz
Distortion	Less than 1%
<b>Speaker</b>
