

PLANTRONICS ENTERA™

The simple value for money headset

Entera offers you a simple, value for money headset. It is available with a single earpiece that can be worn on either ear, or dual earpieces to block background noise. Both come with a noise-cancelling microphone for clear speech. The Entera headset comes with Plantronics world class service and support.

Key features:

- **Noise reducing microphone** – for improved intelligibility
- **Choose the single ear-piece model** – to confer with colleagues or the dual ear-piece model to block out background noise
- **Wideband audio** – to help you preserve investment when moving to VoIP
- **Comfortable and lightweight** – for improved agent wellbeing
