- **Facilitates call handling from phone to PC**
- **Speakerphone and headset provide hands-free opportunity**
- **Includes standard keys to control incoming calls, volume or speakerphone**
- **Backlit LCD display indicates user's online status, incoming caller ID and time**
- **Excellent voice quality**
- **Improved presence indication**
- **Ease of use**

Unified Communications (UC) aims to improve the availability of colleagues and contacts regardless of location whilst guaranteeing effective communication between them. The new **snom UC600** is the Unified Communications no-frills vehicle from snom: A traditional IP desk phone especially designed for use with Microsoft® Lync. Thanks to a comprehensive feature and function set, a wide range of business communications challenges can be overcome.

Not only does the **snom UC600** connect traditional phone functionality and PC communications, it also pro-

vides easy plug-and-play via an integrated USB cable. The **snom UC600** is fully optimized for Microsoft® Lync and immediately adopts the registration information of the Microsoft® Lync Communicator.

The **snom UC600** includes the entire range of user-friendly business features and functions and is equipped with a two-line backlit LCD display indicating your online status, incoming caller ID and time. Alongside a sophisticated presence status light for effectively directing calls, the **snom UC600** also offers a series of convenient keys to control calls, such as redial, flash

and delete buttons, a speakerphone and headset button, volume control and a microphone mute button. Clear, high definition wideband audio provides premium audio telephony whilst eliminating background noise and echoes and delivering excellent voice quality. The speakerphone and headset offer a convenient hands-free opportunity for effectively carrying out your office work. By implementing the **snom UC600**, you will streamline your enterprise's communications and increase productivity.
